

March 15, 2011

Dear Center School Families,

This letter is to notify you that we will soon be registering your student for the 2011-2012 school year. In preparation you and your student should be reviewing the Center School Course catalogue found at:

<http://centerschoolseattle.org/years/courses.html> . The Center School graduation requirements can be found on-line at:

<http://centerschoolseattle.org/years/default.html> . If you do not have access to a computer, we are more than happy to send you a hard copy of the course catalogue, please call the front desk to request one to be sent home with your student.

Our plan is to register students by the end of March 2011. We will be registering students in small groups, in the science classes. This method provides a more individualized way to help select the course they need for graduation and allows for a more personalized atmosphere for selecting classes and reviewing graduation requirements. We will provide your student with their transcript to aid in the accurate determination of course work.

If your student is not currently enrolled in a science class, our team will be available for counseling your student on which courses to take in a timely matter for graduation from the Center School.

At The Center School, core classes (LA/SS/Science) are predetermined for your student. Math is based on their current year Math level and all students are required two years minimum Spanish. We are asking your student to be prepared to select their art electives during registration. Please have them review art electives that will be offered next year, in the course catalogue.

If you have any questions, feel free to contact me at the e-mail address below.

Sincerely,

Oksana Britsova
Principal
