

# The Center School

## Freshman Registration Process

All Center School freshmen have a core course schedule which will include:

### **HUMANITIES**

(Language Arts/Social Studies)

### **INTEGRATED SCIENCE**

### **MATH**

### **SPANISH**

### **HEALTH**

### **BEGINNING ART and DRAWING (semester)**

Most 9<sup>th</sup> graders are scheduled in level 1 for Spanish and Math, which is Algebra 1. If you are coming to us from a Seattle Public School, your current middle school math teacher has provided us with your 9<sup>th</sup> grade math placement. If you are coming from a private school or out of district, we will need a letter from your current math teacher if your placement is to be anything other than Algebra 1.

If you believe your Spanish level will be higher than Spanish 1, we ask that you wait until the fall to request a Spanish placement test from your teacher. Please have your math placement letter to us as soon as possible. If you have an IEP, your teacher will work with you regarding any study skills support classes needed.

Freshmen also need to have taken and passed Washington State History in middle school. Again, if you are coming from a Seattle Public Middle school, we will have this information. Students coming from outside Seattle Public Schools will need to provide proof of Washington State History completion.

Please see the reverse side of this letter to see a sample of a typical freshman schedule.
